Revelations & Insights ✿ \ ~

“Sharing the Unknown & Untold Powerful Secrets Of The Soul”

My early childhood years were somewhat unusual; because at the age of 3, it slowly began to dawn on me that I could see ‘people’ that no one else could see – lurking in our backyard. With my hands cupped tightly over my eyes to avoid their taunting invitations, I knew my carefree days of playing outside, would never be the same. This was how I came to view the outside world – by peeping through the gaps between my little fingers. I feared their motives, *“were they here to befriend me, or take me away?”*

It was from such humble and unusual beginnings, that several years later, my automatic-writing gift mysteriously emerged in my life. Indulging in this gift, would soon take its toll and the burdens of its secrets would turn my world upside down; causing me to abandon my gift just as mysteriously, as it had arrived. Decades later, when the tragedy of losing both my parents in a 5 month period, plunged me into the depths of despair – I questioned the meaning & purpose, of my life.

One night, I asked a Universal question, which was strangely this; *“What is the greatest gift I could give of myself to Humanity?”* I awoke, clearly hearing a whisper of repeated words. Unmistakably, this was not just my childhood automatic-writing gift, returning to me – but, its Soul awakening & rediscovery.

Today, I invite YOU to journey with me, into a new world of Soul awakening, revelations & insights. So, the doorways to your destiny can be opened – not shut. This humble invitation fulfills a major part of my destiny, too. Indeed, in the 4 years it has taken me to complete this 400+ page Book Trilogy; I have fathomed the unfolding answer to my very first question. For, in sharing this book, I am sharing *“the greatest gift I could give of myself to Humanity”* – with you! ~ #Hugs & #Love ~ @Eleesha
